

Jeff Cope graduated from NCSU in 2001 with a B.S. in Mechanical Engineering. He founded InspectionXpert Corporation in 2004 to help precision manufacturers transform their inefficient paper processes. Mr. Cope bootstrapped his business from a corner desk in his bedroom to a business with over 20 employees, 7,000 users across 6 continents in 14 different languages, and \$3.5 million in annual revenue. Mr. Cope's software has been used by NASA, Pratt & Whitney, Hyperloop, Roush-Yates Racing, and many others. Mr. Cope successfully sold his company in 2018.
