

As a student, Kimberly Missy Moore gained valuable work experience through the Engineering Co-Op program. In 1988 she joined R.J.Reynolds Tobacco Co as a Manufacturing Engineer and earned her PE in Control Systems in 1998. Across her 32 years at Reynolds, Missy held various leadership roles in both IT and Operations and for many years had the privilege of presenting the R.J. Reynolds Tobacco Company Award for Excellence in Teaching, Research and Extension to deserving members of the NC State Engineering faculty. Prior to her recent retirement, she had responsibility for all US cigarette production for Reynolds. Beyond her work life, Missy has served faithfully at her church, mentored High School robotic teams, and served on the MAE Advisory Board. Missy is an avid horseback rider and shares that interest with her husband of 30 years, Mark Moore ( NCSU IE '85), and is the proud mother of Sarah Moore (NCSU BioMed Engineering 2018) and Tanner Moore (NCSU Ag Business Management 2021).
